

**AUTISM AWARENESS SERIES**

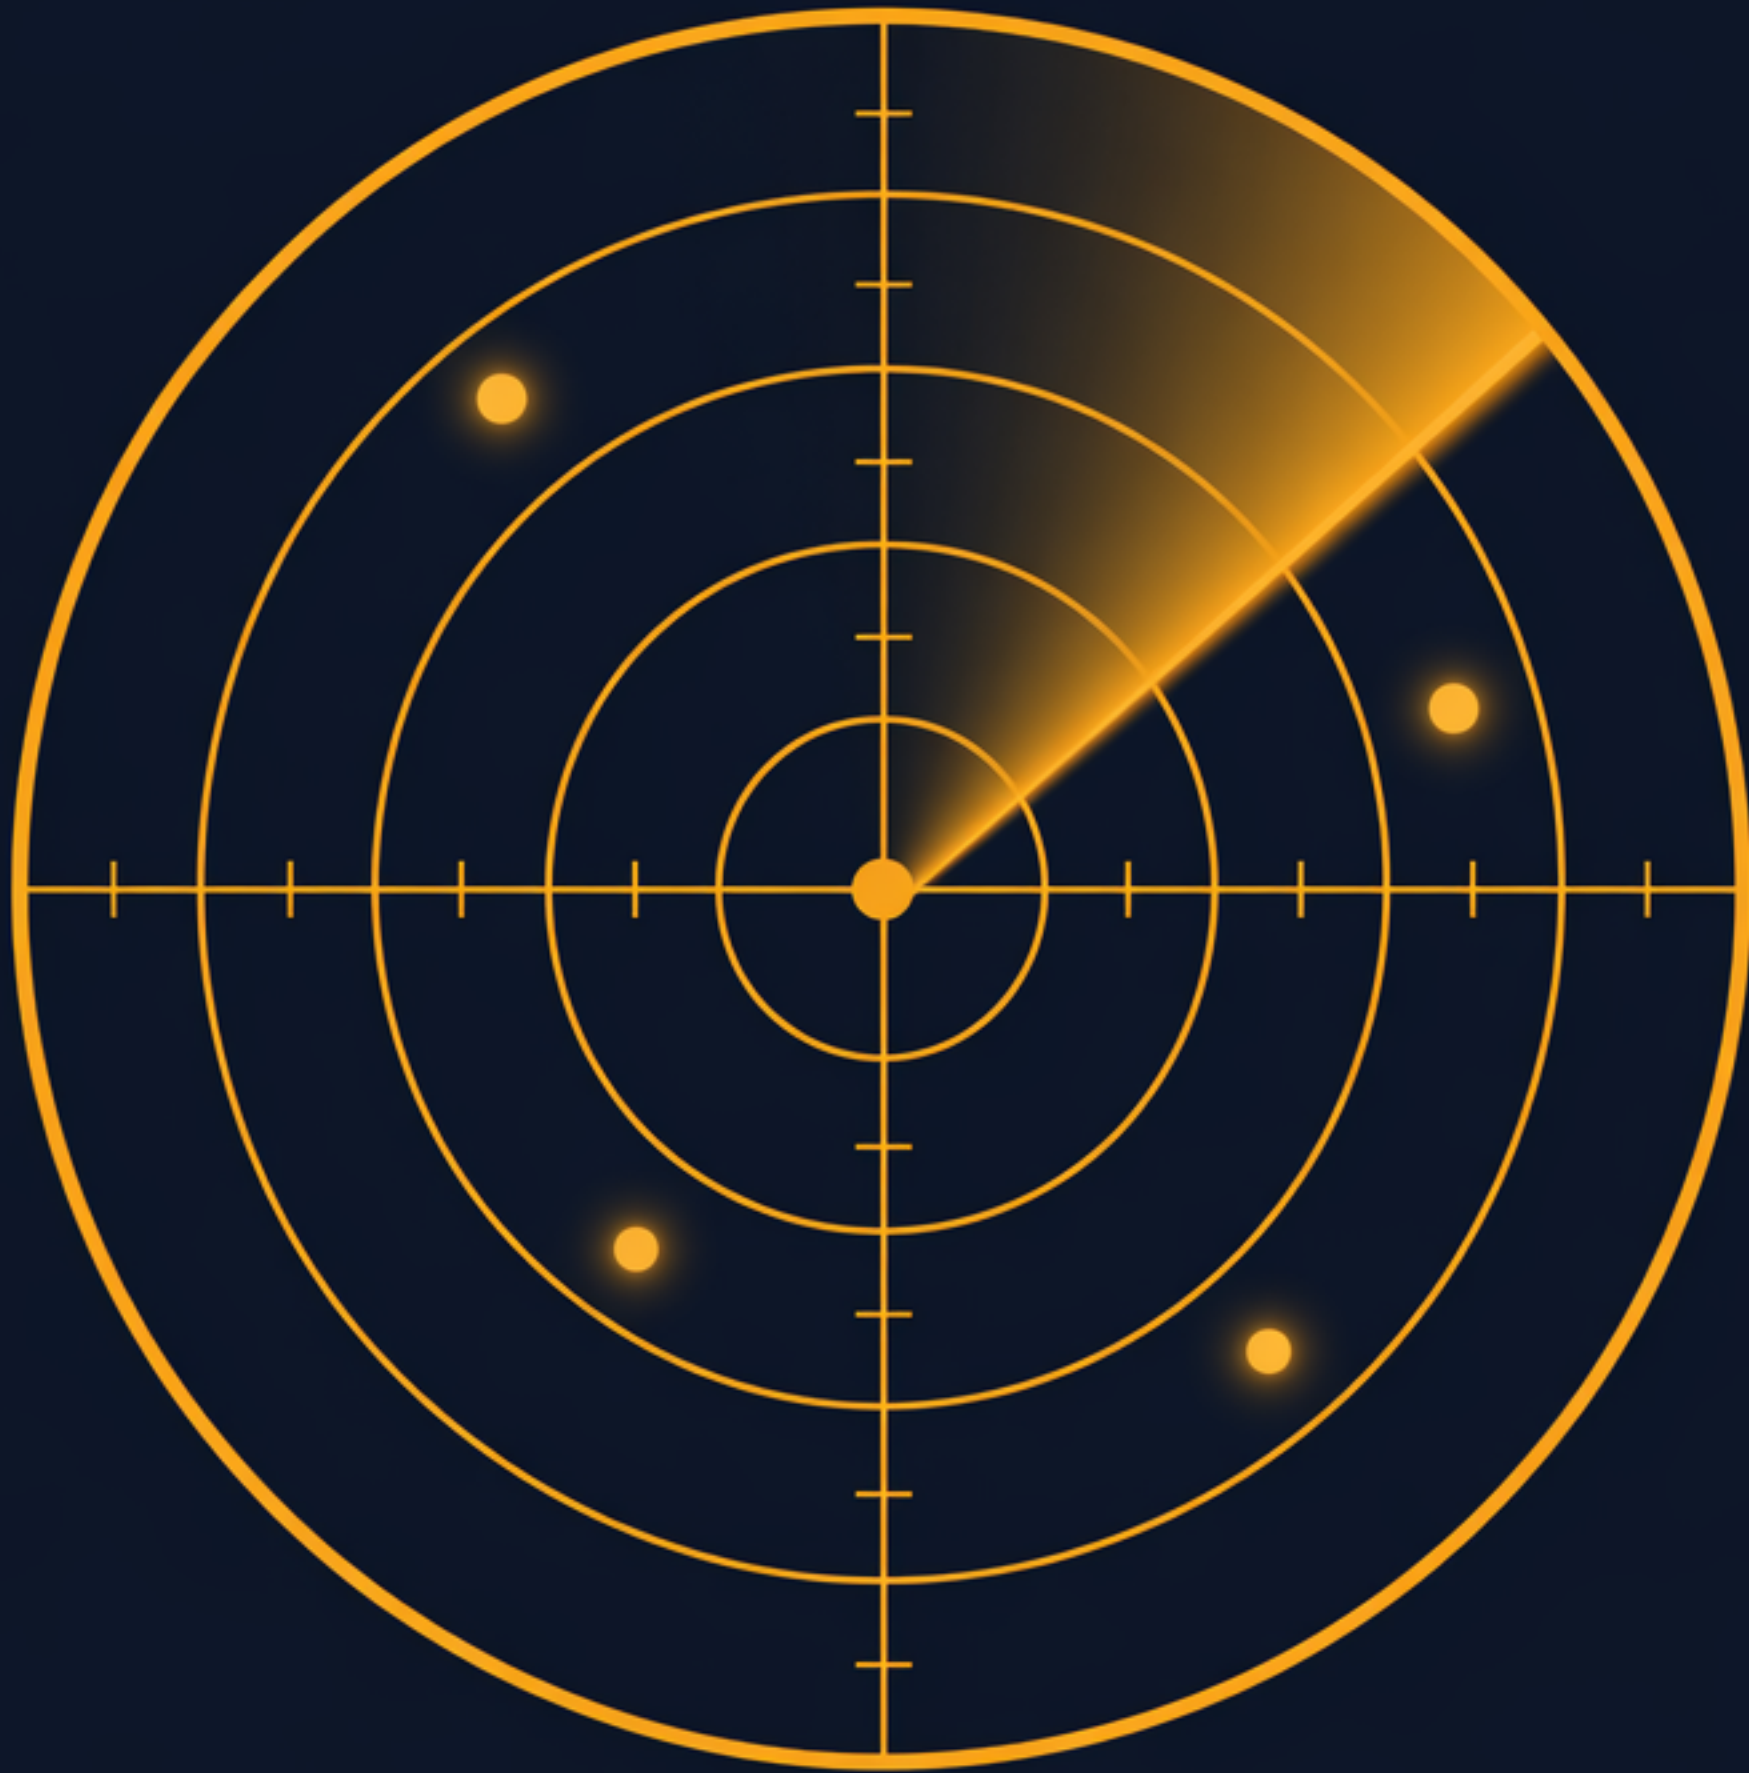

# The Constant Background Hum

---

Why the autistic brain never quite stops

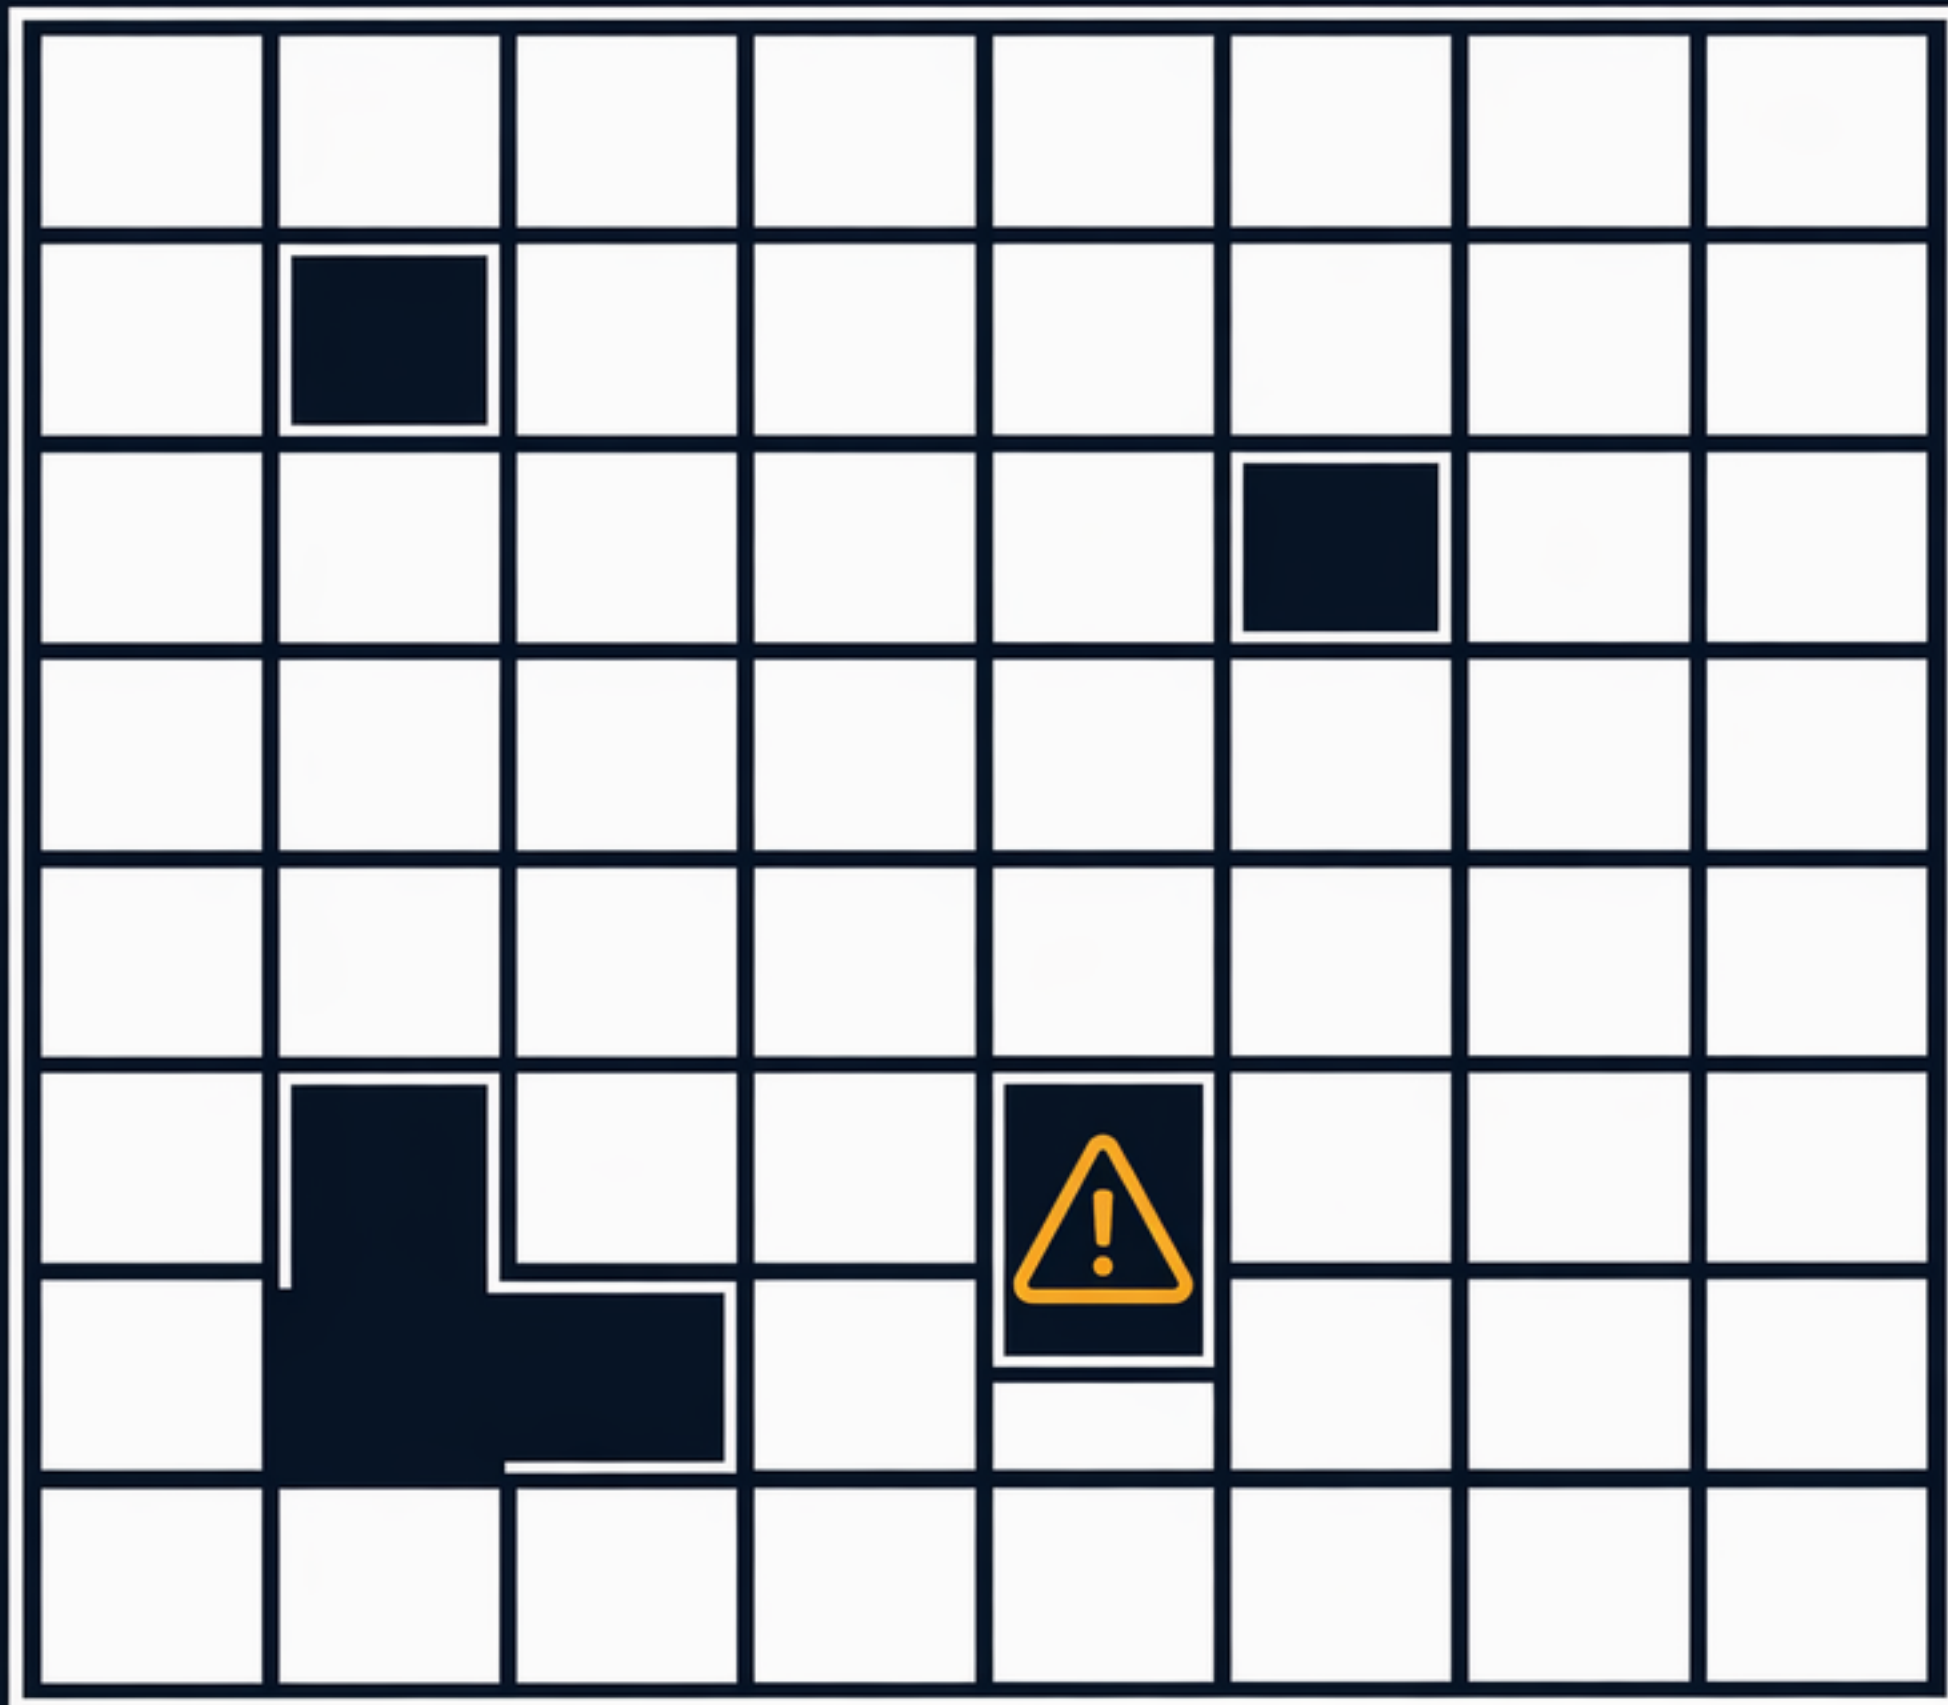

**#3 — Hypervigilance**

[raphink.info/autism](http://raphink.info/autism)

**It's not anxiety about something.**  
**It's a scan that never stops.**

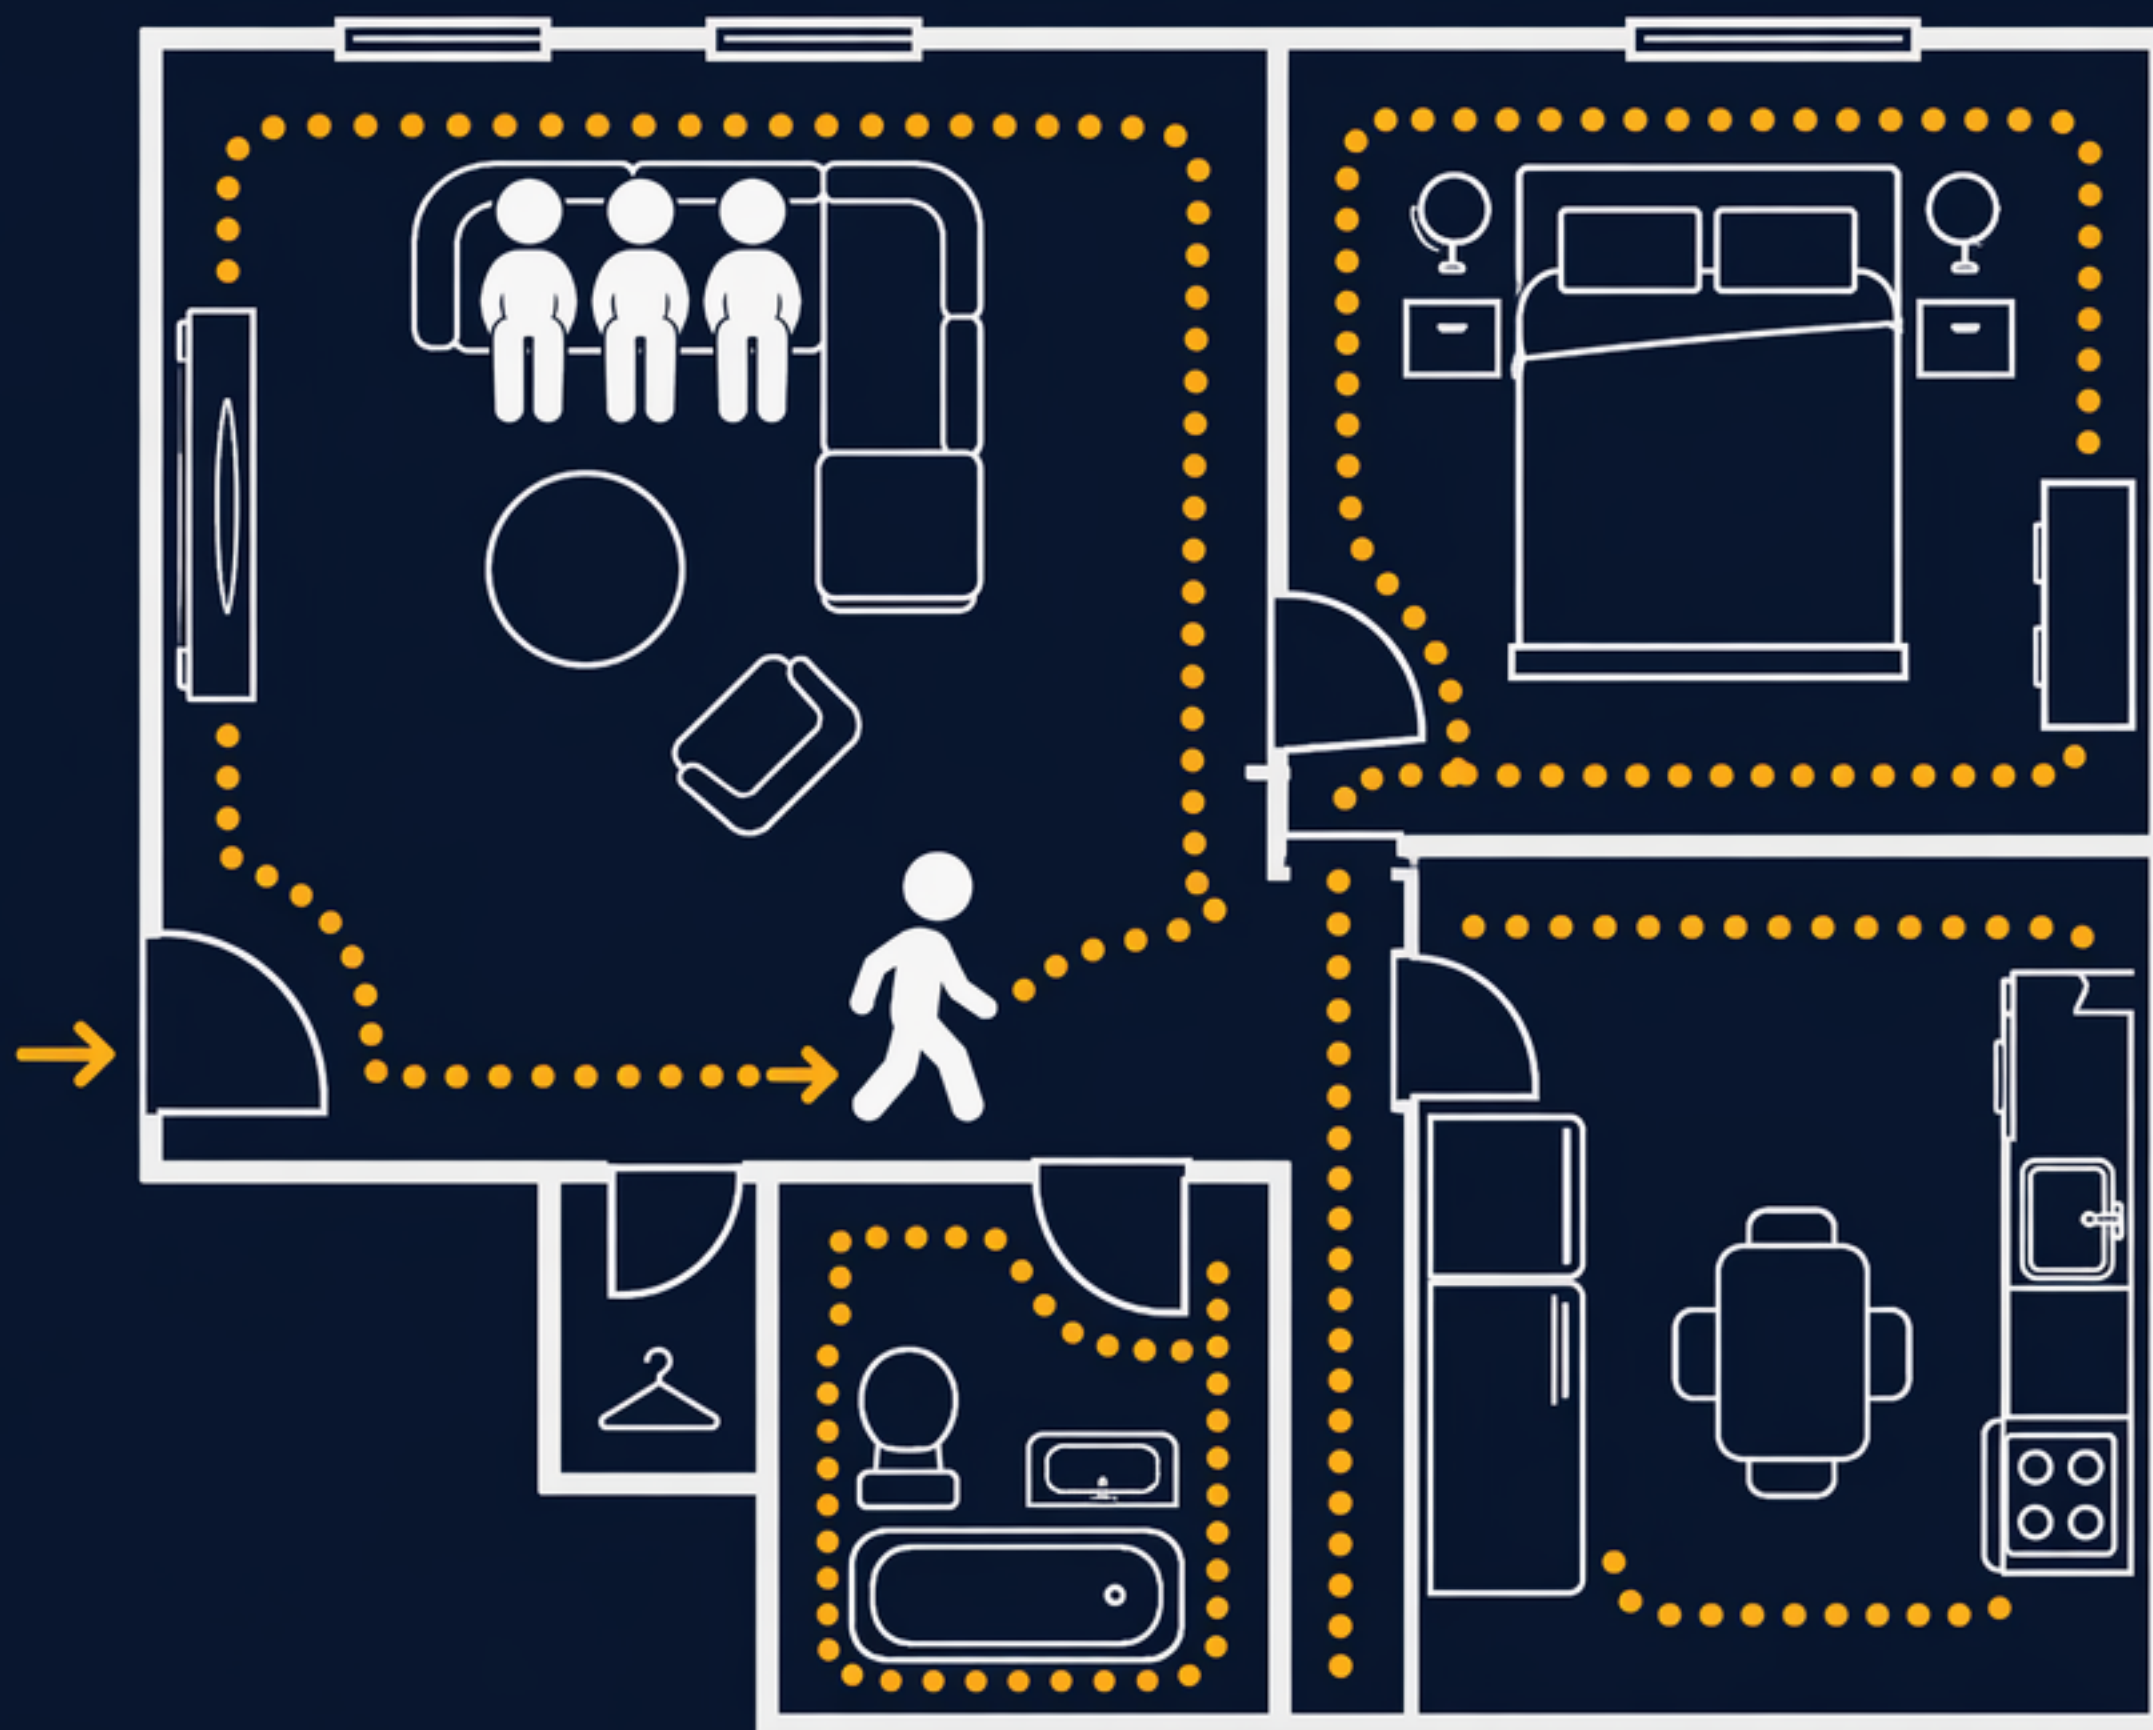

# INTOLERANCE OF UNCERTAINTY

**Any gap in the map  
is a potential trapdoor.**

**AS A CHILD, VISITING FRIENDS...**

**I had to map every room  
before I could sit down.**

## Unknown territory

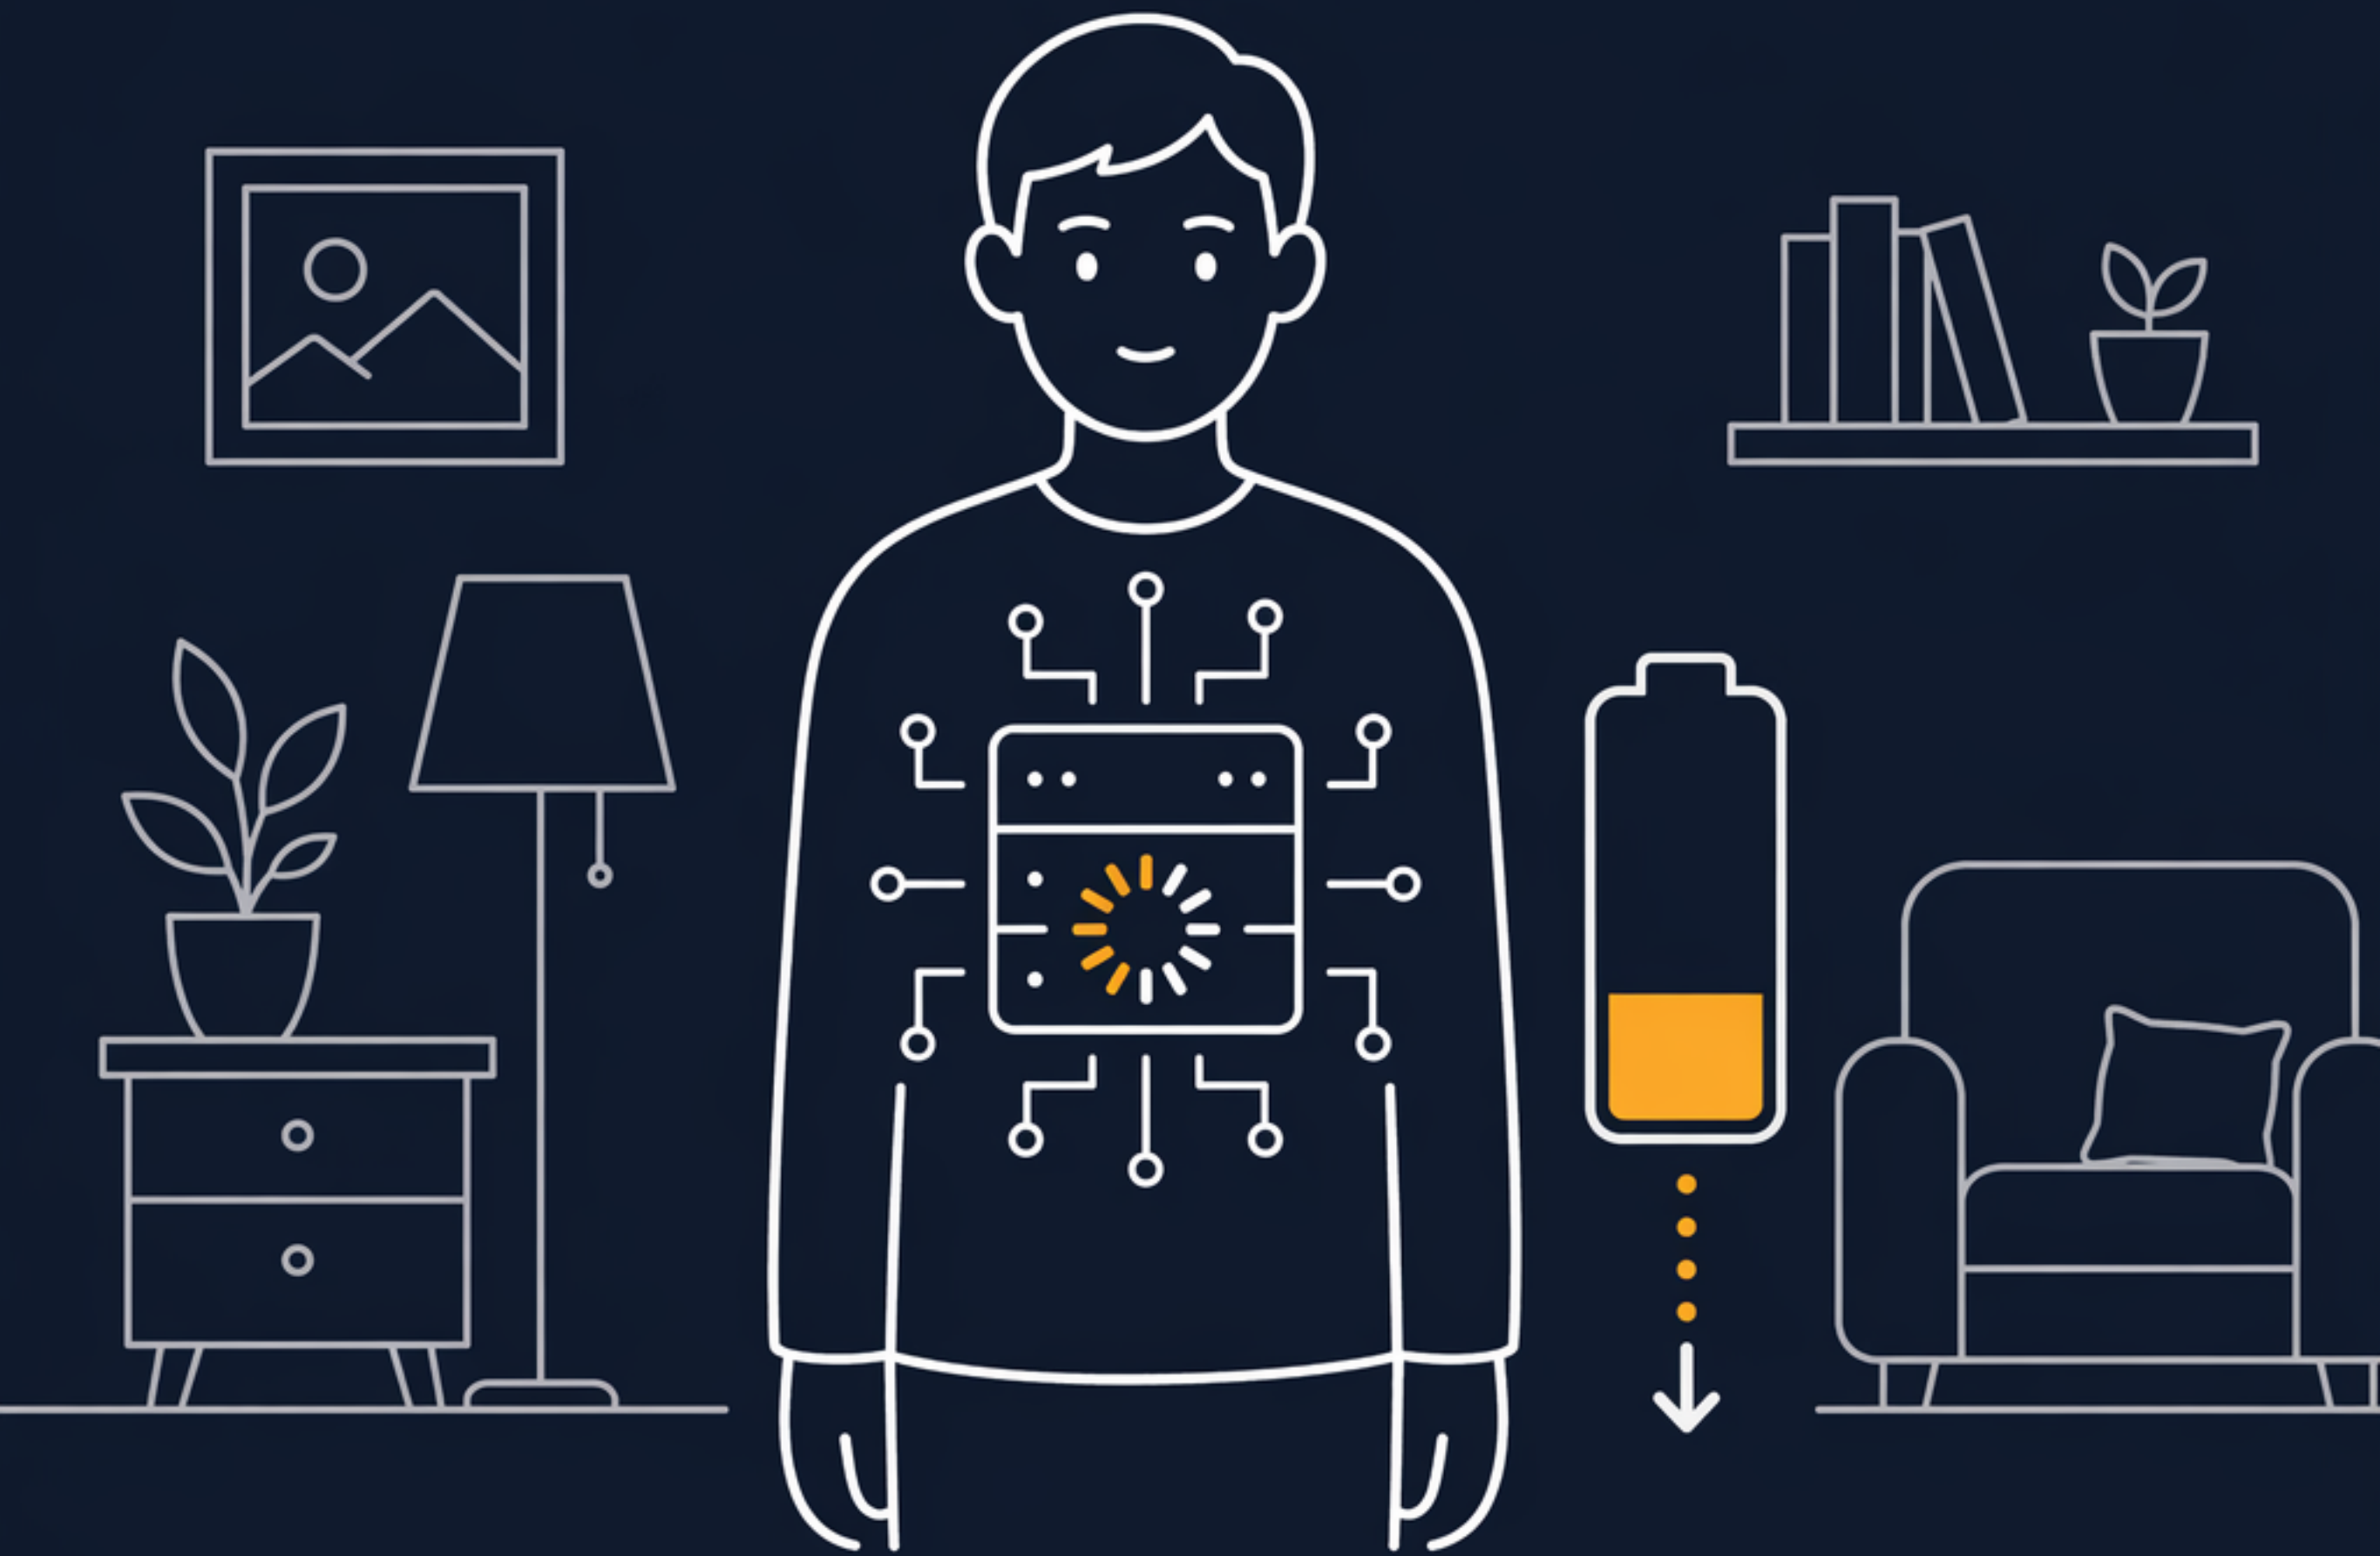

## Special interest domain

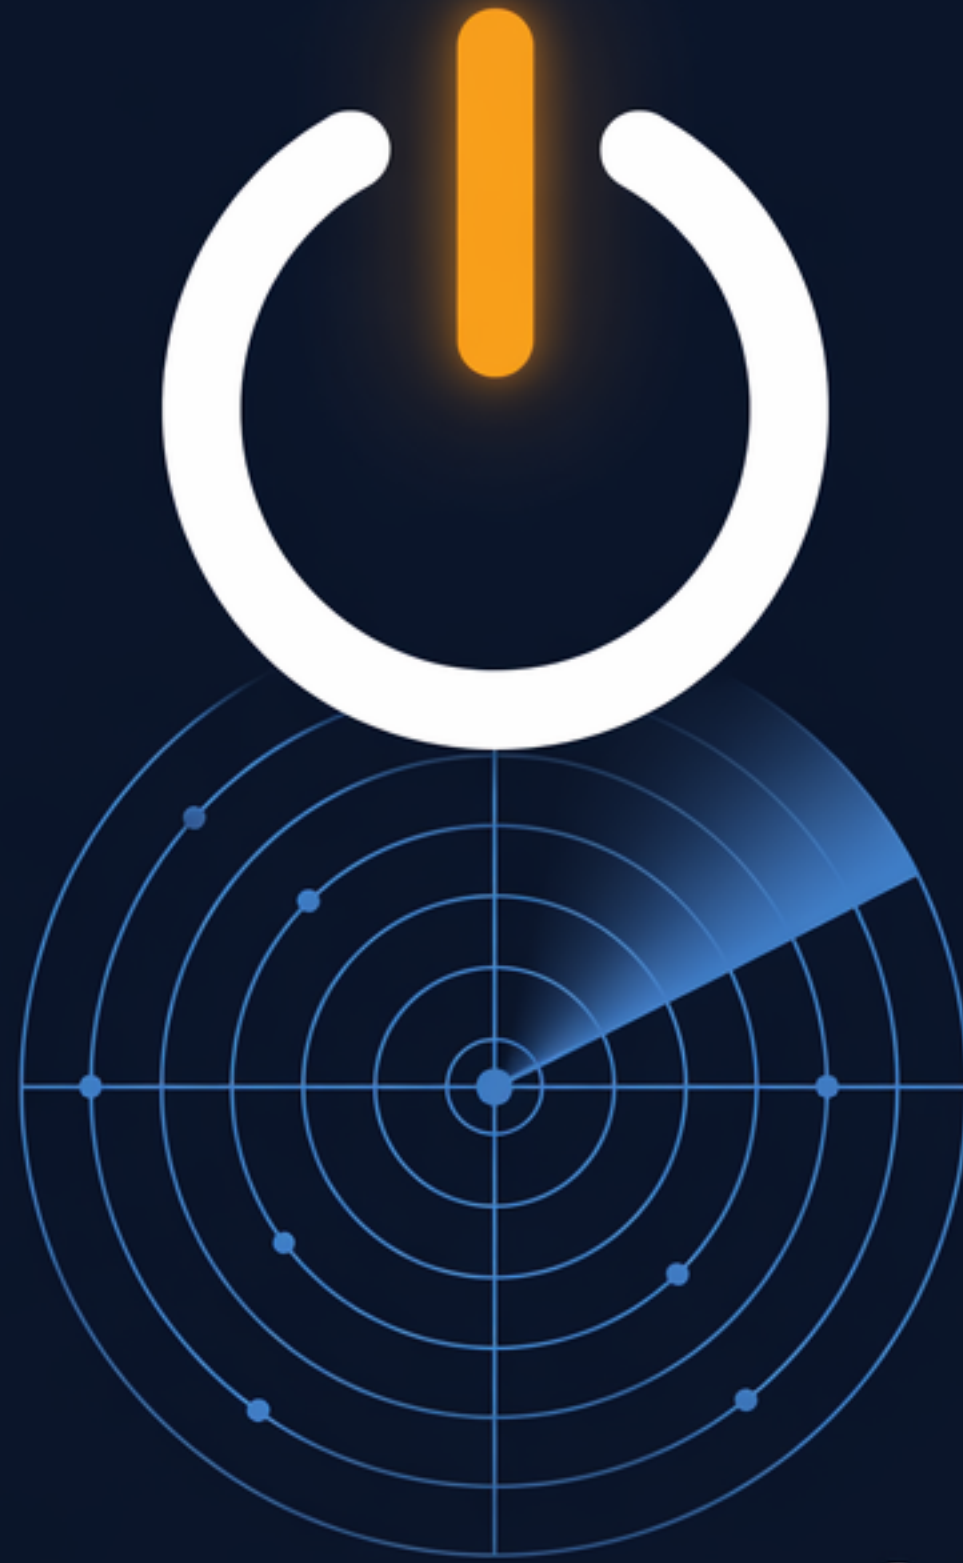

**A domain I know deeply  
is a domain with no trapdoors.**

**The exhaustion isn't from interacting.**  
**It's from never switching off.**

**Not a switch.**  
**A baseline.**
